Summary

React Developer and a U.S National Guard vet ready to get out there. Received a certificate in Full Stack Web Development from the University of Minnesota with skills in XML, React, HTML, CSS/SCSS and JavaScript. Very motivated to create new features using various frameworks and create innovative bug fixes with a focused mindset. Worked in a team of 3 to engineer a Department of Natural Resources app to find information about specific natural areas for outdoor enthusiasts. Have an eye for UI and UX design aspects when developing an app. Ready to learn new technologies and collaborate with new people, as a part of the technical workforce!

Technical Skills

Axios, Apollo-server-express, API, Bcrypt, React-Bootstrap, CSS, SCSS, connect-session-sequelize, Cookies, Express, Express-Session, Git, GraphQl, HTML5, Handlebars, JavaScript, jQuery, JsonWebToken, MySQL, MongoDB, Mongoose, NOSQL, Node.js, React, RESTful, Sequelize, UI/UX, Webpack, XML

Projects

Children's Quiz | Repository: https://bit.ly/39ckL8N |Project live page: https://bit.ly/3wn3qlK
A fun way for children to learn
- Take a quiz designed for preschool aged children
- This app successfully demonstrates quiz mechanics mixed with music
- Tools/Languages: React, XML, React-Bootstrap, CSS, Bcrypt, Express, Graphql, Apollo-server-express, JsonWebToken, Mongoose, Concurrently, Moment.js and jwt-decode.

Space Tourism | Repository: https://bit.ly/3medfxI |Project Live Link: https://bit.ly/3QdBcTE
This is a challenge taken from Front End Mentor website
- This challenge displays the ability to take a design and turning it into a website
- This app uses nested navigation to get around and SCSS
- Tools/Languages: -XML, SCSS, React, Figma, React-Bootstrap.

Creative Dev Project |Repository: https://bit.ly/3tIo6Dm|Project Live Link: https://bit.ly/3KFdXOO
My role in this project was setting up the back-end using graphql and participating in the front-end.
- Open source platform for users (specifically devs) to share creations and opent the opportunity for collaboration.
- Demonstrates understanding of react and Graphql
- Users can login or sign in and be brought to the main blog page with options to post a project or comment on other user posts.
- Tools/Languages: -React, XML, React-Bootstrap, CSS, Bcrypt, Express, Graphql, Apollo-server-express, JsonWebToken and Mongoose.

Previous Work Experience

Reinhart
08-2018/ 09-2021
Truck Driver
Rogers, MN
- As a truck driver I had many responsibilities and as a delivery role customer service is important.
- I had many good responses from customers on how much I care about getting the job done right!
- Took various safety precautions when executing a backing maneuver.
- When a product had a questionable quality I will bring it up to the customer for consideration
- Accomplished driver training in the winter

K&K Metal
09-2021/ 11-2021
Truck Driver
Minneapolis, MN
- Was responsible for picking up and delivering recycled metal.
- Delivered 40,000bls of metal to be recycled
- Always had a good attitude and understanding with customers
- Was on time for deliveries and treated the products with respect
- Was able to execute a hard backing maneuver when being observed by the boss

Minnesota National Guard
04-2017/ Current
Infantry
MN
- Acquired good work ethics and responsibility
- Security clearance
- Responsible for $17,500 of equipment
- Deployed to Horn of Africa for security detail

Education

University of Minnesota
03/2022
